

# 19<sup>th</sup> International Congress of Comparative Endocrinology

## Luncheon Seminar III

### Highly Specific and Multiplex mRNA Detection Using In Situ Hybridization Chain Reaction in Fish Research

Speaker

**Takehiro Tsukada** Ph.D.

Associate Professor

Department of Biomolecular Science, Toho University, Japan

Date

July 11 (Fri.)  
12:25 – 13:25

Venue

Room 3, Exhibition Bldg.,  
Sendai International Center

NEPAGENE HP: <https://nepagene.jp> E-mail: [info@nepagene.jp](mailto:info@nepagene.jp)

**ISH palette™**

Single-molecule RNA FISH

**for in situ HCR** Hybridization Chain Reaction

**TIYO™** Autofluorescence Quenching Illuminator

Efficient quenching with one simple step
